

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

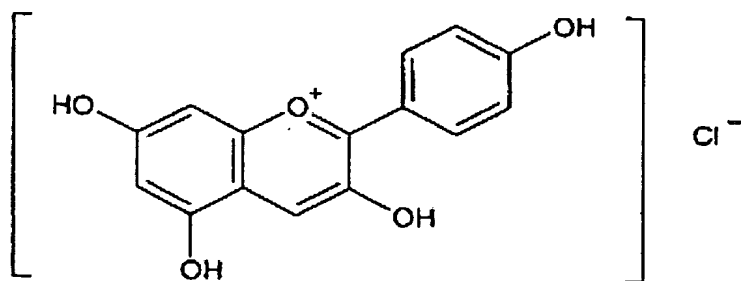

**LISTING OF CLAIMS:**

Claim 1 (Previously Presented): A method for treating bronchial asthma by inhibiting the accumulation of eosinophiles in cells, tissues or a body, comprising administering an effective amount of black rice extract to an individual in need thereof.

Claim 2 (Canceled).

Claim 3 (Previously Presented): A method for treating bronchial asthma by inhibiting the accumulation of eosinophiles in cells, tissues or a body, comprising administering an effective amount of pelargonidin represented by Formula 1, pharmaceutically acceptable salts or glycosides thereof to an individual in need thereof;

wherein Formula 1 is represented by the following:

Claims 4-16 (Canceled).

Claim 17 (Previously Presented): The method of claim 1, wherein the black rice extract comprises pelargonidin represented by Formula 1.

Claim 18 (Previously Presented): A method for treating symptoms of bronchial asthma, comprising administering an effective amount of black rice extract to an individual in need thereof;

wherein said symptoms result from the accumulation of eosinophiles in the cells, tissues or body of said individual.

Claim 19 (Previously Presented): The method of claim 1, wherein the black rice extract comprises pelargonidin represented by Formula 1.

Claim 20 (New): The method of claim 1, wherein the black rice extract comprises pelargonidin represented by Formula 1, cyanidin glycoside presented by Formula 2, or a combination thereof.

Claim 21 (New): A method for treating bronchial asthma by inhibiting the accumulation of eosinophiles in cells, tissues or a body comprising administering an effective amount of cyanidin glycoside (cyanidin 3-O- $\beta$ -glucopyranoside) represented by Formula 2 or pharmaceutically acceptable salts thereof to an individual in need thereof;

wherein Formula 2 is represented by the following:
